第5回　｜　部分演習（筆記全体の制限時間は流用しません）　｜　選択問題 31問

■ 出題構成・自己採点記録表

大問	問題番号	出題形式・内容	設問数	自己採点・点検
1	(1)〜(17)	短文の語句空所補充	17問	／17
2	(18)〜(23)	長文の語句空所補充	6問	／6
3	(24)〜(31)	長文の内容一致選択	8問	／8

■ 演習・印刷の手引き

1. 問題冊子には正答や解説を載せていません。解答用紙はA4横マークシート（1ページ）です。
2. 印刷時は「白黒・実際のサイズ（100%）」を選ぶと、マーク欄や英作文罫線が本番見本に近い実寸で出力されます。
3. 解き終わるまでは「解答・解説」を開かず、本番と同じ時間配分を意識して取り組んでください。
4. 同じ選択問題はアプリの「分野別練習」、英作文課題はアプリの「ライティング練習」でも学習・保存できます。

1

次の(1)から(17)までの（ ）に入れるのに最も適切なものを1, 2, 3, 4の中から一つ選び、その番号のマーク欄をぬりつぶしなさい。

(1) The coastal road will be widened next spring to (　　) heavy weekend traffic near the ferry terminal.

1 recite　**2** resemble　**3** relieve　**4** recruit

(2) Even minor cracks in a ceramic teapot can cause it to leak once boiling water makes the clay (　　).

1 expand　**2** expire　**3** export　**4** expose

(3) Students participating in the debate tournament are expected to back (　　) their claims with reliable statistics.

1 away　**2** off　**3** out　**4** up

(4) Because the wooden annex lacks central heating, it is used only on a (　　) basis during mild spring and autumn weeks.

1 sensible　**2** seasonal　**3** stubborn　**4** scarce

(5) The town's disaster map is updated every two years in (　　) with neighborhood fire captains.

1 contradiction　**2** consumption　**3** consultation　**4** concentration

(6) At first the two painters worked in very different styles, yet over time they had a strong mutual (　　) on each other.

1 instance　**2** innocence　**3** ignorance　**4** influence

1　短文の語句空所補充（続き）

(7) The cycling helmet feels remarkably light, yet its inner foam is dense enough to (　　) sudden impacts.

1 absorb　**2** admire　**3** accuse　**4** appoint

(8) With snowstorms approaching the pass, truck drivers had no (　　) but to wait at the service area overnight.

1 ambition　**2** alternative　**3** allowance　**4** affection

(9) The bakery displays ingredient cards in both Japanese and English for the (　　) of international residents.

1 convenience　**2** coincidence　**3** conscience　**4** competence

(10) Although the new sorting machine works fast, fragile peaches must still be packed (　　) by experienced staff.

1 mentally　**2** mutually　**3** manually　**4** merely

(11) The documentary was praised for presenting a balanced view rather than being (　　) toward one side.

1 brief　**2** blessed　**3** bound　**4** biased

(12) Please refrain from stepping off the wooden boardwalk lest delicate wetland plants (　　) crushed.

1 are　**2** be　**3** were　**4** will be

1　短文の語句空所補充（続き）

(13) Only when she read the diary fifty years later (　　) she realize how hard her grandparents had worked.

1 was　**2** had　**3** did　**4** would

(14) Local volunteers cleared silt from the stream so that young salmon could swim upstream without (　　).

1 obligation　**2** obstruction　**3** observation　**4** occupation

(15) The new ferry fare applies to all passengers (　　) of whether they buy tickets online or at the pier.

1 regardless　**2** capable　**3** worthy　**4** short

(16) After comparing three venues, the choir chose the civic hall because its stage could (　　) eighty singers.

1 accomplish　**2** accumulate　**3** accompany　**4** accommodate

(17) Our chemistry teacher warned that mixing those two household cleaners could give (　　) harmful gas.

1 back　**2** in　**3** off　**4** up

2 A

次の英文を読み、その文意にそって(18)から(20)までの（ ）に入れるのに最も適切なものを1, 2, 3, 4の中から一つ選び、その番号のマーク欄をぬりつぶしなさい。

Why Supermarkets Sell "Weather-Marked" Fruit

Shoppers choosing apples or pears in a supermarket often equate smooth, spotless skin with good flavor. As a result, fruit whose skin was lightly scratched by wind-blown twigs or summer hail is frequently rejected by retail buyers, even when the flesh underneath is just as crisp and sweet as top-grade produce.

After an early autumn typhoon scarred nearly forty percent of one orchard town's apple crop, local cooperatives tried a different approach rather than selling the fruit cheaply for juice alone. They packed the apples in clear bags with a small illustrated card explaining how wind marks form on branches and assuring buyers that the inside was unaffected. Supermarkets priced these "weather-marked" bags twenty percent lower than gift-grade fruit. (***18***), families looking for everyday snacks bought out the first shipment within days.

Follow-up surveys showed an interesting shift in customer attitudes. Shoppers who tasted the discounted apples realized that minor surface marks had no bearing on sweetness or storage life. (***19***), orchards earned nearly double what juice factories would have paid, helping farmers cover pruning and repair costs after the storm.

Cosmetic standards still matter for formal seasonal gifts, of course. Yet giving honest context at the shelf proved that (***20***).

(18)

1 In response　**2** Otherwise　**3** On the contrary　**4** Nevertheless

(19)

1 Instead　**2** Otherwise　**3** Previously　**4** Meanwhile

(20)

1 typhoons improve the skin smoothness of every apple

2 clear explanation can turn cosmetic imperfections into a win for both shoppers and growers

3 consumers refuse to buy fruit unless it comes in wooden gift boxes

4 juice factories pay higher prices than supermarkets

2 B

次の英文を読み、その文意にそって(21)から(23)までの（ ）に入れるのに最も適切なものを1, 2, 3, 4の中から一つ選び、その番号のマーク欄をぬりつぶしなさい。

Keeping Bus Timetables Readable for Everyone

Public transit agencies pack an impressive amount of data onto a single bus-stop sign: weekday runs, Saturday schedules, holiday exceptions, fare zones, and route branches. For regular commuters who ride the same 7:42 a.m. bus every day, dense columns of tiny numbers soon become familiar. For an occasional rider, an older resident with declining eyesight, or a visitor standing in the rain, however, reading that grid can feel like solving a puzzle.

When a coastal city redesigned its three hundred bus-stop poles, designers began by watching people actually use the signs. Many riders traced rows with a finger because closely spaced lines caused their eyes to jump from the 8:00 row to the 9:00 row. Simply increasing font size was not enough on narrow poles, so the team removed repeated minute labels, grouped departures by morning, midday, and evening bands, and added subtle gray shading to every second row. (***21***), misreading errors in user tests dropped by more than half.

Equally helpful was replacing text-heavy footnotes—such as "Buses marked with a triangle bypass Harbor Hospital on Sundays"—with a small diagram showing the two route branches visually. Riders grasped where each numbered bus went in seconds rather than hunting for tiny symbols at the bottom of the board. (***22***), high-contrast black ink on matte yellow-white panels reduced glare under both midday sun and streetlamps.

Digital arrival apps are convenient, yet batteries die and tourists may lack data plans. Treating the humble bus-stop sign as serious information design ensures that (***23***).

(21)　**1** Even so　**2** On the other hand　**3** As a consequence　**4** Until recently

(22)　**1** Otherwise　**2** Instead　**3** Nevertheless　**4** Furthermore

(23)

1 anyone at the curb can navigate the city independently without a screen

2 regular commuters can no longer take the 7:42 a.m. bus

3 bus drivers do not need to stop at Harbor Hospital on weekdays

4 smartphones are banned on all coastal buses

3 A

次のEメールの内容に関して、(24)から(26)までの質問に対する答えとして最も適切なもの、または文を完成させるのに最も適切なものを1, 2, 3, 4の中から一つ選びなさい。

From: K. Nagai, Local Archive Volunteer Desk
To: High School History Club Members
Subject: Handling family photos and interview cards on Friday

Dear History Club members,
Thank you for helping set up Friday's exhibition, "Everyday Life Along the Shopping Arcade, 1960–1990," at the civic gallery. Residents have lent us more than sixty original family photographs and shop ledgers, so careful handling during afternoon setup is essential.

Whenever you touch original photographs or paper ledgers, please wear the clean white cotton gloves placed on the worktable. Natural oils from bare fingertips leave invisible marks that slowly turn brown on old silver-gelatin prints. If you need to use your smartphone or write notes with a ballpoint pen, take the gloves off first so ink or screen dust does not transfer onto the items.

Each display case will pair an original object with a short story card based on your club's interviews with shopkeepers. Before placing any card inside a case, check with the lender's consent form in the green binder to confirm whether the resident wished to be named in full or identified only by initials.

Setup runs from 4:00 p.m. to 5:45 p.m.; bottled drinks must stay on the hallway shelf outside the gallery.

Sincerely,
K. Nagai

3A　Preparing Exhibits for the Town History Week　設問 (24)〜(26)

(24) Why must students wear white cotton gloves when handling the borrowed photographs?

1 To keep their hands warm in the cold civic gallery.

2 Because bare fingers leave natural oils that gradually stain old prints.

3 Because the photographs are still wet from darkroom chemicals.

4 To tell History Club members apart from gallery visitors.

(25) What should students do before using a ballpoint pen or smartphone?

1 Remove their cotton gloves so ink or dust does not get on the items.

2 Step outside the building completely.

3 Put on a second pair of cotton gloves.

4 Wash the ballpoint pen with water.

(26) Why do students need to check the green binder before placing story cards in cases?

1 To see which photographs can be given away for free.

2 To calculate how much rent each shopkeeper owes.

3 To verify whether each resident wanted their full name or only initials shown.

4 To find the Wi-Fi password for the civic gallery.

3 B

次の英文の内容に関して、(27)から(31)までの質問に対する答えとして最も適切なもの、または文を完成させるのに最も適切なものを1, 2, 3, 4の中から一つ選びなさい。

How Hospital Courtyards Support Recovery

For much of the late twentieth century, hospital architecture prioritized compact efficiency: air-conditioned towers with short walking distances for staff, wipe-clean corridors, and sealed windows. Courtyards and gardens, once common around older infirmaries, were often paved over for parking or extra diagnostic wings. Over the past twenty years, however, medical planners have been bringing greenery back into the heart of hospital buildings—not merely as decoration, but as a practical aid to care.

Interest grew after clinical studies compared patients recovering from similar surgeries in rooms facing trees with those facing blank brick walls. Patients with a view of foliage tended to report less discomfort, sleep more steadily, and transition home slightly sooner. Subsequent research in rehabilitation wards showed that accessible outdoor courtyards motivated patients learning to walk again: reaching a sunlit bench beside seasonal flowers felt like a meaningful goal compared with counting tiles down a fluorescent hallway.

Designing an effective hospital garden requires far more care than planting a public park. Paths must be wide, level, and glare-free so IV poles and wheelchairs roll without jolting. Strongly scented lilies or heavy pollen-producing trees can bother patients sensitive to smells after chemotherapy, so landscape architects favor gentle textures, rustling bamboo, trickling water, and herbs whose fragrance appears only when someone chooses to brush a leaf. Shaded seating pockets also give family members and nurses a quiet five-minute refuge to reset emotionally between difficult conversations.

Skeptics understandably ask whether garden maintenance belongs in tight healthcare budgets. Yet hospitals that track staff turnover and visitor satisfaction increasingly treat well-designed courtyards as shared infrastructure. When nurses have a calm place to step outside on break and patients move more willingly during physical therapy, modest landscaping pays quiet returns across the whole institution.

3B　How Hospital Courtyards Support Recovery　設問 (27)〜(31)

(27) Why were hospital gardens often removed during the late twentieth century?

1 Doctors believed green leaves spread winter colds.

2 City laws banned trees within one kilometer of clinics.

3 Patients refused to look out windows after surgery.

4 Hospitals focused on compact indoor efficiency and used outdoor space for parking or new wings.

(28) How did outdoor courtyards help patients in rehabilitation wards?

1 They allowed patients to skip physical therapy altogether.

2 Walking to a sunny bench by flowers gave patients a more motivating goal than a plain hallway.

3 Courtyards had escalators that carried wheelchairs automatically.

4 Patients grew all the vegetables served in the hospital cafeteria.

(29) Why do hospital garden designers avoid strongly scented flowers and heavy pollen trees?

1 They attract bears into city centers.

2 They cost ten times more than bamboo.

3 Strong odors and pollen can trouble sensitive patients, such as those undergoing chemotherapy.

4 Nurses are not allowed to smell flowers on break.

(30) Besides patients, who else benefits directly from shaded courtyard seating?

1 Delivery truck drivers parking inside the garden.

2 Family members and nurses needing a brief, calm break during stressful days.

3 Ticket sellers collecting admission fees at the gate.

4 Construction crews testing loud machinery.

(31) How do hospitals increasingly view the cost of maintaining well-designed courtyards?

1 As worthwhile shared infrastructure that supports both patient care and staff well-being.

2 As a way to replace all surgical equipment.

3 As a wasteful luxury that should be cut first.

4 As a temporary trend suitable only for tropical islands.
