Make a Weather Station

Science Club Open Day
Saturday, May 18, 1:00–3:00 p.m.
Community Hall, Room B

Learn to build a simple weather station from things you can find at home. This event is for children aged ten to fifteen. Members of the science club will help you, so you do not need any experience. Please bring an empty plastic bottle with its cap. All other materials will be provided.

Only twenty children can join. Send your name and age to the club by May 12. Parents may watch, but they cannot take part in the activity. The event will be held indoors even if it rains.

(21) What should children bring to the event?

1 A bottle with a cap.

2 A complete weather station.

3 Twenty sheets of paper.

4 A set of science books.

(22) How can children get a place at the event?

1 Ask a parent to join the club.

2 Send their name and age by May 12.

3 Visit Room B every Saturday.

4 Buy all the materials in advance.

Help with the Garden Exhibition

From: Nora
To: Daniel
Subject: Garden exhibition

Hi Daniel,
Our class is preparing an exhibition about the school garden. You said you wanted to help, and I have a special job for you. We took photographs of the garden every week, but we do not have anyone to arrange them on the display boards. You are good at choosing pictures, so could you do that?

The exhibition was going to open on Thursday, but the hall will be used for a teachers' meeting that day. It will open on Friday instead. We must finish our work by Wednesday afternoon because the boards need to be checked.

Could you come to Room 5 after school on Tuesday? I will bring the photographs and some large sheets of paper. You only need to bring scissors. We can use the school's glue. If you cannot come, please email me before Monday evening so I can ask someone else.

Thanks,
Nora

Help with the Garden Exhibition — Questions

(23) What does Nora want Daniel to do?

1 Teach visitors how to grow plants.

2 Take photographs every Thursday.

3 Choose and arrange the photographs.

4 Buy new display boards.

(24) Why has the opening day changed?

1 The photographs were lost.

2 Daniel cannot come on Tuesday.

3 The garden is closed for repairs.

4 The hall has another use on Thursday.

(25) What must Daniel bring on Tuesday?

1 Scissors.

2 Glue.

3 Large paper.

4 Garden tools.

The Second Repair

When Oliver's headphones stopped working, he put them in a drawer and planned to buy new ones. Then he saw a poster for a repair workshop at the library. Anyone could bring a broken object and learn how to repair it with help from a volunteer. Oliver thought he could save some money, so he decided to go.

At the workshop, a volunteer named Grace checked his headphones. The problem was a small wire inside them. Oliver expected Grace to do all the work, but she gave him a tool and explained how to use it safely. He was nervous at first. After several tries, however, he connected the wire. The headphones worked again.

Grace explained that repairing things could reduce the amount of rubbish people threw away. Oliver had never thought about this before. He began looking around his house for other broken things. He found a desk lamp that his sister had stopped using. It was not the same kind of problem as the headphones, so he could not fix it immediately.

The next month, Oliver returned to the workshop with the lamp. This time he asked Grace to show him how to discover the problem, rather than repair it for him. They found that a switch needed cleaning. Oliver cleaned it, and the lamp came on.

Now Oliver helps prepare the room before each workshop. He does not know enough to repair every object, but he can welcome visitors and explain what to expect. He tells them that learning is more important than finishing quickly. His sister uses the lamp again, and Oliver has kept the poster that first brought him to the library.

The Second Repair — Questions

(26) Why did Oliver first go to the workshop?

1 To meet his sister's friends.

2 To avoid spending money on new headphones.

3 To borrow a book about lamps.

4 To sell the things in his drawer.

(27) What surprised Oliver about the first repair?

1 He had to buy an expensive tool.

2 His headphones had no wires.

3 He was expected to do the repair himself.

4 Grace asked him to leave immediately.

(28) What did Grace help Oliver understand?

1 Old objects are always easy to repair.

2 Libraries should stop lending books.

3 Repairing is useful only for saving money.

4 Repairing objects can reduce waste.

(29) How was Oliver different at the second workshop?

1 He wanted to learn how to identify the trouble.

2 He refused to use tools.

3 He expected the repair to take only a minute.

4 He asked Grace to buy a new lamp.

(30) What does Oliver do at workshops now?

1 Repair every object that visitors bring.

2 Assist with preparation and welcome visitors.

3 Make posters instead of helping visitors.

4 Give away new headphones to children.
