第2回

英検準2級プラス形式

一次筆記（リーディング・ライティング）

第2回　｜　筆記目安時間：85分　｜　選択問題 31問 ＋ ライティング 2題

■ 出題構成・自己採点記録表

大問	問題番号	出題形式・内容	設問数	自己採点・点検
1	(1)〜(17)	短文の語句空所補充	17問	／17
2	(18)〜(23)	長文の語句空所補充	6問	／6
3	(24)〜(31)	長文の内容一致選択	8問	／8
4	大問 4	ライティング（英文要約）（目安 25〜35語）	1題	□ 自己点検済
5	大問 5	ライティング（英作文）（目安 50〜60語）	1題	□ 自己点検済

■ 演習・印刷の手引き

1. 問題冊子には正答や解説を載せていません。解答用紙はA4横2ページ構成です（A面：マークシート／B面：左右2列のライティング解答欄）。
2. 印刷時は「白黒・実際のサイズ（100%）」を選ぶと、マーク欄や英作文罫線が本番見本に近い実寸で出力されます。
3. 解き終わるまでは「解答・解説」を開かず、本番と同じ時間配分を意識して取り組んでください。
4. 同じ選択問題はアプリの「分野別練習」、英作文課題はアプリの「ライティング練習」でも学習・保存できます。

1

次の(1)から(17)までの（ ）に入れるのに最も適切なものを1, 2, 3, 4の中から一つ選び、その番号のマーク欄をぬりつぶしなさい。

(1) The city museum decided to (　　) the photography exhibition by two weeks due to strong visitor demand.

1 confess　**2** suspect　**3** scatter　**4** extend

(2) Before purchasing the used bicycle, Kenji inspected the brakes to make sure they functioned (　　).

1 narrowly　**2** properly　**3** casually　**4** scarcely

(3) Residents are asked to (　　) from making loud noises on balconies after nine in the evening.

1 result　**2** refrain　**3** recover　**4** rely

(4) Because the two villages face similar transport problems, they launched a (　　) bus project.

1 joint　**2** passive　**3** hollow　**4** fragile

(5) Even minor errors in the timetable can cause considerable (　　) among commuters on Monday morning.

1 ambition　**2** gratitude　**3** nutrition　**4** confusion

(6) The charity could not have distributed five hundred meal boxes without the (　　) support of local bakeries.

1 generous　**2** hostile　**3** reluctant　**4** shallow

1　短文の語句空所補充（続き）

(7) The laboratory requires visitors to wear safety glasses (　　) of how briefly they stay inside.

1 instead　**2** capable　**3** worthy　**4** regardless

(8) Please back up your presentation files onto an external drive in case the laptop (　　) before tomorrow's meeting.

1 failing　**2** to fail　**3** fails　**4** failed

(9) ***A :*** Did the committee accept Mr. Ota's proposal right away?
B : No, several members (　　) out that the maintenance cost had not been calculated.

1 turned　**2** pointed　**3** handed　**4** carried

(10) New software has made it much easier to (　　) track of books borrowed across five branch libraries.

1 keep　**2** hold　**3** bring　**4** put

(11) Provided (　　) you return the tripod before noon on Sunday, you may borrow it for the school event.

1 what　**2** which　**3** that　**4** whom

(12) The hiking club decided to call (　　) the sunrise climb after thunder was heard in the distance.

1 for　**2** on　**3** up　**4** off

1　短文の語句空所補充（続き）

(13) The instructions on the medicine bottle warn patients not to (　　) the recommended daily dose.

1 absorb　**2** persuade　**3** exceed　**4** imitate

(14) Once the new pedestrian bridge is completed, walking to the hospital will take half as long as it (　　) now.

1 is　**2** can　**3** has　**4** does

(15) Many residents expressed their (　　) to the firefighters who worked through the night to protect the forest.

1 appreciation　**2** exaggeration　**3** illustration　**4** hesitation

(16) The cafe offers a ten-percent discount to customers who bring a (　　) tumbler instead of taking paper cups.

1 reusable　**2** disposable　**3** temporary　**4** fragile

(17) Hardly anyone expected the amateur choir to win first prize, yet their performance was truly (　　).

1 obscure　**2** reluctant　**3** remarkable　**4** artificial

Audio Labels in the Supermarket

For shoppers with poor eyesight, choosing between dozens of similar-looking cans and boxes in a supermarket can be exhausting. Price tags on shelf edges are often printed in tiny type, and packaging designs change frequently without warning. Even regular customers may hesitate to pick up an unfamiliar brand if they cannot easily check cooking instructions or allergy warnings.

To address this problem, a regional grocery chain tested small raised QR stickers on its own-brand food packages. Unlike ordinary promotional codes that open long marketing pages, these tactile stickers can be located by touch and scanned from a wide angle. A smartphone immediately reads aloud the product name, weight, expiry rule, and allergy ingredients. (***18***), shoppers do not need to align the camera precisely with a small symbol.

Feedback from visually impaired testers led to one further improvement. Early versions read every piece of text from top to bottom, forcing listeners to wait thirty seconds before hearing whether an item contained nuts or dairy. Designers reorganized the spoken order so critical safety details came first, making the labels (***19***).

Unexpectedly, other customers began using the stickers too, including elderly shoppers who had left reading glasses at home and foreign residents checking unfamiliar ingredients. Designing for a specific barrier ended up creating (***20***).

(18)

1 Otherwise　**2** Despite that　**3** In other words　**4** On the contrary

(19)

1 slower to scan at the checkout counter

2 far more practical during a busy shopping trip

3 available only to professional nutritionists

4 impossible to use without reading glasses

(20)

1 confusion among all store employees

2 a reason to print even smaller price tags

3 higher prices on every product in the store

4 convenience for a much wider group of shoppers

2 **B**

Why Study Rooms Added Background Sound

Students often assume that the best place to study is the quietest room available. Based on this idea, a municipal youth center created a strictly silent reading room on its top floor. Surprisingly, within a month, students complained that the room felt tense. In near-total silence, every cough, turning page, or chair movement sounded startlingly loud.

Acoustic specialists point out that human attention is drawn not simply to loudness, but to sudden contrasts in sound. When a room has almost no background sound, minor noises stand out sharply and break concentration. Extreme quiet had paradoxically made the room (***21***).

Instead of relaxing the rules and allowing loud conversations, the center divided its study floor into two zones. One zone kept the silent rule for exam takers who preferred complete stillness. The larger zone introduced soft, steady ambient sound resembling gentle rain and distant airflow. Students could also speak briefly in low voices when sharing notes. (***22***), a single dropped pen no longer disturbed everyone in the room.

Usage surveys three months later showed high satisfaction in both zones, with many students switching between them depending on their task. Memorizing vocabulary worked well in silence, while drafting group slides suited the moderately active room. Supporting concentration meant (***23***) rather than enforcing a single acoustic rule everywhere.

(21)

1 too noisy for anyone to hear a cough　　**2** more distracting than staff had anticipated

3 popular with local music bands　　**4** cheaper to heat during winter evenings

(22)

1 On the other hand　**2** Prior to that　**3** As a consequence　**4** Even though

(23)

1 banning students from bringing pens or paper

2 offering environments suited to different study needs

3 removing the silent room from the building

4 playing loud rock music throughout the day

3 A

次のEメールの内容に関して、(24)から(26)までの質問に対する答えとして最も適切なもの、または文を完成させるのに最も適切なものを1, 2, 3, 4の中から一つ選びなさい。

From: Takashi Miura, Career Guidance Coordinator
To: Second-Year Students
Subject: Next Wednesday's workplace visits

Dear students,
Next Wednesday, November 18, all second-year students will visit local workplaces, including clinics, architectural offices, bakeries, and city departments, to observe professionals at work. Please check the bulletin board outside the guidance room today to confirm your assigned host organization and travel group.

Each group will travel directly from home to its host site rather than coming to school first. Plan to arrive ten minutes before your scheduled start time. If your train or bus is delayed, call both the school office and the contact number listed on your assignment sheet immediately.

During the visit, remember that staff members are handling real patients, clients, and deadlines. You are encouraged to ask questions during the designated Q&A session, not while employees are speaking with customers. Taking written notes in your handbook is welcome, whereas taking photographs or recording audio on smartphones is strictly prohibited to protect workplace privacy.

By the following Monday, please submit a one-page reflection sheet AND a handwritten thank-you card addressed to your host supervisor. Our office will check the cards for formal wording before mailing them together.

Best regards,
Takashi Miura

3A　Guidelines for the High School Career Shadowing Day　設問 (24)〜(26)

(24) How should students travel on the morning of November 18?

1 Arrive at their host sites thirty minutes after opening.

2 Wait at the station until Takashi Miura calls them.

3 Meet in the guidance room before taking a school bus.

4 Go straight from their homes to their assigned workplaces.

(25) What are students allowed to do during the workplace visit?

1 Take photographs of employees helping clients.

2 Record conversations on their smartphones.

3 Interrupt staff whenever a question comes to mind.

4 Write notes in their handbooks and ask questions during Q&A time.

(26) Why must thank-you cards be turned in to the guidance office first?

1 So staff can review the wording before sending them out.

2 Because students do not know the names of their host workplaces.

3 To select only one card from the entire second-year class.

4 Because postal mail is no longer used in the city.

3 ***B***

次の英文の内容に関して、(27)から(31)までの質問に対する答えとして最も適切なもの、または文を完成させるのに最も適切なものを1, 2, 3, 4の中から一つ選びなさい。

Why Repair Instructions Matter Before You Buy

When consumers shop for a toaster, a desk fan, or a cordless vacuum cleaner, they usually compare price, weight, and battery life. Rarely do they ask what will happen three years later when a switch wears out or a battery loses strength. Yet millions of small household appliances are discarded every year not because their motors have failed, but because replacing a single inexpensive part requires special tools or sealed cases cannot be opened safely.

In response, several consumer groups and regional governments have introduced "repairability scores" displayed right beside product prices in electronics stores. Instead of giving a vague environmental badge, the score rates five concrete factors from one to ten: how easily a product can be taken apart, whether spare parts are sold to the public, how many years those parts remain available, how much they cost relative to a new machine, and whether clear repair manuals can be downloaded for free.

When the scoring system first appeared, some manufacturers argued that shoppers cared only about low upfront prices and would ignore technical ratings. Early retail data suggested otherwise. Even customers who never intended to use a screwdriver themselves began choosing models with higher scores, viewing repairability as a sign of honest engineering and long-term durability.

More importantly, the visibility of low scores prompted manufacturers to change design habits before products ever reached store shelves. Engineers replaced glue with standard screws in several popular appliances and published step-by-step part diagrams online. A company might willingly tolerate a complaint buried in customer service emails, whereas a low number printed on every price tag directly affected sales.

Specialists caution that a label alone does not guarantee fewer discarded appliances. Local repair shops still need affordable parts and trained technicians, and consumers may still replace working machines when new features look appealing. Even so, making repair information visible at the moment of purchase shifts attention from how cheaply an item is made to how responsibly it can be kept in use.

3B　Why Repair Instructions Matter Before You Buy　設問 (27)〜(31)

(27) According to the first paragraph, why are many small appliances thrown away?

1 Their motors almost always burn out within a month.

2 Minor worn parts cannot be replaced easily due to product design.

3 Consumers prefer heavier machines with shorter battery life.

4 Electricity laws forbid keeping appliances for more than three years.

(28) Which of the following is included in calculating the repairability score?

1 Whether the product was advertised on television.

2 How many colors the appliance comes in.

3 How long replacement parts remain available and what they cost.

4 How fast the store delivers the appliance to a customer's home.

(29) What surprised some manufacturers after the scores were displayed in stores?

1 Electronics stores removed all cordless vacuum cleaners.

2 Every customer demanded free screwdrivers at the register.

3 Even shoppers who would not repair items themselves favored higher-scoring models.

4 All customers stopped looking at product prices completely.

(30) How did the scoring system influence product engineers?

1 They began sealing every appliance case with stronger glue.

2 They switched from glue to standard screws in several models and shared diagrams.

3 They hid part diagrams so competitors could not read them.

4 They stopped producing spare parts altogether.

(31) What caution do specialists express in the final paragraph?

1 Labels help shift attention, though repair shops, affordable parts, and user habits also matter.

2 Consumers should never buy new appliances under any circumstances.

3 Only large industrial machines can ever be repaired safely.

4 Repairability labels should be abolished immediately.

4 ライティング（英文要約）

● ライティング課題は2つ（大問 4 と 大問 5）あります。筆記目安時間内に両方の課題に解答してください。
● この問題の解答は、解答用紙B面（2ページ目）の「4」の解答欄に英語で記入してください。

● 以下の英文を読んで、その内容を 25〜35語の英語で要約し、解答欄に記入しなさい。
● 解答は、解答用紙B面にある「4 英文要約解答欄」に書きなさい。なお、解答欄の外に書かれたものは採点されません。
● 本文に書かれていない自分の意見は加えず、英文の内容をよく読んでから自分の言葉でまとめなさい。

Recently, many family restaurants have replaced printed paper menus with tablet screens at each table. Customers can view clear photos of dishes in multiple languages and send orders directly to the kitchen without waiting for a server.

This system speeds up ordering during busy lunch hours and allows restaurants to update sold-out items immediately without reprinting paper pages.

However, some older customers find small buttons on bright screens confusing to navigate, and families find it harder to compare several pages together. Consequently, some restaurants now keep a few printed menus available upon request.

MEMO

5 ライティング（英作文）

● ライティング課題は2つ（大問 4 と 大問 5）あります。筆記目安時間内に両方の課題に解答してください。
● この問題の解答は、解答用紙B面（2ページ目）の「5」の解答欄に英語で記入してください。

● 以下の QUESTION について、あなたの考え（意見）とその理由を2つ英文で書きなさい。
● 語数の目安は 50語〜60語です。
● 解答は、解答用紙B面にある「5 英作文解答欄」に書きなさい。なお、解答欄の外に書かれたものは採点されません。
● 解答が QUESTION に対応していないと判断された場合は採点対象になりません。内容をよく読んでから答えてください。

QUESTION

Do you think public libraries should stay open later in the evening?

MEMO
