準2級+

ROUND 01

英検準2級プラス形式

一次筆記（リーディング・ライティング）

第1回 問題冊子 ｜ 筆記目安時間：85分 ｜ 選択問題 31問 ＋ ライティング 2題

■ 出題構成・自己採点記録表

大問	問題番号	出題形式・内容	設問数	自己採点・点検
1	(1)〜(17)	短文の語句空所補充	17問	／17
2	(18)〜(23)	長文の語句空所補充	6問	／6
3	(24)〜(31)	長文の内容一致選択	8問	／8
4	Writing 1	ライティング（英文要約）（目安 25〜35語）	1題	□ 自己点検済
5	Writing 2	ライティング（英作文・意見論述）（目安 50〜60語）	1題	□ 自己点検済

■ 演習・印刷の手引き

1. 問題冊子には正答や解説を載せていません。解答用紙は2ページ構成です（1ページ目：A4横マークシート／2ページ目：A4縦ライティング解答欄）。
2. 印刷時は「白黒・片面・実際のサイズ（100%）」を選ぶと、マーク欄や英作文罫線が実寸で出力されます。

3. 解き終わるまでは「解答・解説」を開かず、本番と同じ時間配分を意識して取り組んでください。
4. 同じ選択問題はアプリの「分野別練習」、英作文課題はアプリの「ライティング練習」でも学習・保存できます。

※ 本冊子はマナトビが独自に執筆・編集した英検準2級プラス形式のオリジナル教材（第1回）です。リスニング・二次面接は含みません。日本英語検定協会の公式過去問・公式予想問題ではなく、CSEスコア算出や合否判定は行いません。外部機関による難度校正は未実施です。

1

短文の語句空所補充
1〜4から最も適切な答えを1つ選び、その番号を解答用紙にマークしなさい。

(1) The new sports hall can (　　) up to eight hundred spectators.

1 accommodate　**2** complain　**3** withdraw　**4** interrupt

(2) The hotel apologized for the (　　) caused by the broken elevator.

1 permission　**2** inconvenience　**3** confidence　**4** distribution

(3) The researcher repeated the experiment to make sure the results were (　　).

1 generous　**2** temporary　**3** accurate　**4** remote

(4) The town decided to (　　) the empty station into a community cafe.

1 observe　**2** prevent　**3** confuse　**4** convert

(5) There is no (　　) that the two events were connected; it may be a coincidence.

1 evidence　**2** equipment　**3** expense　**4** effort

1　短文の語句空所補充（続き）

(6) Applicants are required to (　　) their forms by the end of the month.

1 surround　**2** submit　**3** survive　**4** suspect

(7) The printer works well as long as it is (　　) regularly.

1 imagined　**2** announced　**3** maintained　**4** persuaded

(8) Online meetings are convenient, but they cannot completely (　　) face-to-face communication.

1 insist　**2** succeed　**3** pretend　**4** replace

(9) The director rejected the plan because it was not (　　) within the available budget.

1 practical　**2** ordinary　**3** familiar　**4** sensitive

(10) You should keep a copy of the receipt in (　　) you need to return the item.

1 spite　**2** case　**3** charge　**4** order

1　短文の語句空所補充（続き）

(11) The team managed to finish the project (　　) having fewer members than expected.

1 although　**2** because　**3** despite　**4** unless

(12) Her explanation was so (　　) that even beginners could follow it easily.

1 violent　**2** wealthy　**3** distant　**4** straightforward

(13) The two organizations agreed to work together for their (　　) benefit.

1 mutual　**2** occasional　**3** personal　**4** artificial

(14) The old building is in danger of falling down and needs (　　) attention.

1 casual　**2** urgent　**3** steady　**4** usual

(15) The students were asked to (　　) the advantages and disadvantages of each option.

1 protect　**2** replace　**3** evaluate　**4** supply

1　短文の語句空所補充（続き）

(16) The storm prevented the rescue boat (　　) leaving the harbor.

1 with　**2** by　**3** into　**4** from

(17) The manager promised to look (　　) the complaint and contact the customer the next day.

1 into　**2** after　**3** up to　**4** down on

Borrowing More Than Books

A small library wanted to attract residents who rarely borrowed books. Instead of expanding its shelves, it began lending useful household objects, including a sewing machine and a set of gardening tools. The staff hoped that residents could try an object before deciding whether to buy one. People could also borrow items they needed only occasionally.

At first, the library accepted almost every donated object. This created an unexpected problem. Some items were missing parts, while others required repairs that the staff could not perform. The service soon became difficult to manage. The library therefore introduced a rule: every object had to be inspected before it was accepted. **(18)**, donations became easier to handle, even though the library received fewer of them.

Another concern was that borrowers might return objects late. The library considered charging large fines, but staff worried this would discourage people from trying the service. Instead, borrowers received a reminder a day before an item was due. If they needed more time, they could request an extension unless someone else was waiting. The library found that clear communication was **(19)**.

The service is still small. Staff have not claimed that it will replace shopping or solve all the town's waste problems. However, residents have started discussing which objects could usefully be shared. For the library, one important result has been **(20)**. People who had never met now exchange advice about using and repairing the objects they borrow.

(18)

1 As a result
2 For example
3 In contrast
4 Until then

(19)

1 unnecessary for responsible borrowers
2 an effective alternative to severe penalties
3 a reason to stop accepting donations
4 possible only through expensive equipment

(20)

1 the complete disappearance of rubbish
2 a decline in the use of household objects
3 the creation of new connections between residents
4 a decision to lend books less often

A Sign That Needed Testing

Visitors to a nature reserve were often confused at a junction where two walking paths separated. One route led to a lake, while the other climbed a steep hill. To solve the problem, the reserve installed a large map. The staff were confident that a detailed map would provide all the information visitors needed.

However, volunteers noticed that many people still asked for directions. They interviewed visitors and learned that the map included many small paths but did not clearly show where the viewer was standing. The additional detail had made the map **(21)**. The staff had thought about the whole reserve, while visitors needed to make one immediate choice.

A designer suggested placing a simple sign at the junction. It showed two arrows, the names of the destinations, and the walking time for each route. Before installing the final sign, the staff tested a temporary version for two weekends. They asked volunteers to record how often visitors stopped to ask questions. The number fell considerably. **(22)**, fewer people accidentally began the steep route.

The detailed map was not removed. It remained useful near the entrance, where visitors could plan a longer walk. The project showed that good information is not always the largest amount of information. What matters is **(23)**. The same person may need a broad overview at the start of a visit and a short, clear instruction at a junction.

(21)

1 easier for every visitor to understand

2 less suitable for the decision at that location

3 unnecessary for planning any walk

4 more accurate about the walking times

(22)

1 Nevertheless

2 Previously

3 Moreover

4 Otherwise

(23)

1 making every sign as detailed as possible

2 using one design in every part of the reserve

3 asking visitors to memorize the entire map

4 matching the information to the situation

A New Plan for the Exhibition

From: Elena Brooks, Project Leader
To: Student Exhibition Team
Subject: Final arrangements

Dear team,
Thank you for preparing the exhibition on the history of our neighborhood. After looking through your work, the community center has agreed to lend us its main hall. This will allow us to display larger photographs than we could in the school corridor. However, the hall is available for only one weekend, so we must finish setting up by Friday evening and remove everything on Sunday after closing.

We originally planned to borrow display boards from the town office. Unfortunately, they are needed for another event. The center has offered lightweight stands instead. These cannot hold heavy objects, so please do not bring the old tools you collected. Use photographs of them, with short explanations of what they were used for. Your interviews with residents can still be played through the small speakers.

Please send your final captions to me by Monday. I will check them for unclear dates and names, not change your choice of topics. If a resident has asked not to be named, use a description such as "a former shop owner." We have permission to show the donated photographs during the exhibition, but not to post them on social media.

I also need two volunteers to welcome visitors on Saturday morning. You do not have to know every part of local history. Your main task will be to explain the arrangement of the exhibition and direct visitors to the appropriate section. Please reply by tomorrow if you can help.

Elena

A New Plan for the Exhibition — Questions

(24) What is a condition of using the main hall?

1 The school must buy permanent display boards.

2 The exhibition must include every donated object.

3 All preparation must take place on Sunday.

4 The team must set up and clear away within a limited period.

(25) Why should students use photographs of the tools?

1 The replacement stands cannot support heavy objects.

2 The residents no longer permit any display.

3 The tools have been sold by the town office.

4 The exhibition is now entirely online.

(26) What does Elena say about the donated photographs?

1 They can be posted online if names are removed.

2 They are approved for exhibition use, not social media.

3 They must be returned before Saturday.

4 They should be replaced with drawings by students.

Keeping Track of City Trees

On a summer afternoon, a tree-lined street can feel quite different from a nearby road without shade. Trees also provide places for birds and insects to live. Yet city officials often have incomplete information about the trees they are responsible for. Paper records may be old, and different departments may keep separate lists. This can make it difficult to decide where care is most urgently needed.

In one city, a group of residents offered to help create a shared tree record. Volunteers walked along public streets and entered basic information into a mobile form. They recorded each tree's location, took a photograph, and noted visible signs of damage. They were not asked to judge whether a tree was safe. That decision remained the responsibility of trained specialists.

The first month produced thousands of entries, but some were unreliable. A tree near a street corner might be recorded by two teams, while a photograph taken from far away might show the wrong tree. Rather than simply count the entries, the project leader introduced a checking stage. Teams compared neighboring records, and specialists reviewed reports of possible disease. Each confirmed tree received a single identification number.

The resulting map changed how the city planned its work. Officials had previously responded mainly to requests from residents. However, some neighborhoods made many requests while others made few, even when their trees were in poor condition. The new record allowed officials to compare areas more fairly. It also revealed streets where there were very few trees at all.

The project did not mean that every neighborhood could immediately receive new trees. Planting requires money, and there must be enough space underground for roots as well as above ground for branches. In some streets, water pipes and cables limited the available space. Officials had to explain why a request could not always be accepted.

For volunteers, the main lesson was that collecting information was only the beginning. The value of the record depended on checking it, keeping it current, and using it to answer practical questions. The group now revisits a different area each month. Its members hope that a record built through public participation will remain useful because people understand both its purpose and its limits.

Keeping Track of City Trees — Questions

(27) Why was it difficult for officials to plan tree care before the project?

1 All trees were privately owned.

2 Specialists refused to visit the city.

3 Existing records were incomplete or separated.

4 Residents had already removed most trees.

(28) Which task was NOT assigned to the volunteers?

1 Recording locations.

2 Taking photographs.

3 Noting visible damage.

4 Deciding whether a tree was safe.

(29) Why did the leader add a checking stage?

1 Some entries duplicated trees or identified them incorrectly.

2 The city had decided to stop recording tree locations.

3 The mobile form could not accept photographs.

4 Officials wanted volunteers to replace all specialists.

(30) How did the shared record improve planning?

1 It removed the need to explain decisions.

2 It reduced dependence on how many requests an area made.

3 It guaranteed that every street would receive new trees.

4 It allowed the city to ignore damaged trees.

(31) What is the main message of the final paragraph?

1 A large number of entries always proves success.

2 Public participation makes professional checks unnecessary.

3 Useful records require continued checking, updating, and practical use.

4 Collecting data should be completed only once.

4 ライティング（英文要約）

解答は解答用紙（2ページ目）の指定された枠内に英語で書きなさい。（目安語数：25〜35語）

以下の英文を読んで、その内容を英語で要約し、解答欄に記入しなさい。本文にない自分の意見は加えないこと。（目安語数：25〜35語）

Sharing School Stationery

Many students buy notebooks, pens, and folders at the start of the school year and later find they have more than they need. To make good use of these items, one high school placed a sharing shelf near the library.

Students can leave unused stationery on the shelf and take items for free when they run out. This helps families save money and reduces the amount of usable paper and plastic thrown away.

However, some people left broken pens or torn notebooks at first, making the shelf messy. Student volunteers now check the shelf every Friday so everyone can use it comfortably.

構成メモ・下書き欄（MEMO / PLANNING NOTES — 採点対象外・本番解答は解答用紙へ）

5 ライティング（英作文・意見論述）

解答は解答用紙（2ページ目）の指定された枠内に英語で書きなさい。（目安語数：50〜60語）

次のTOPICについて、あなたの意見とその理由を2つ英文で書きなさい。（目安語数：50〜60語）

TOPIC: Do you think more towns should hold outdoor markets on weekends?

構成メモ・下書き欄（MEMO / PLANNING NOTES — 採点対象外・本番解答は解答用紙へ）
